Backgrounder™ I and II

BACKGROUNDER IS A COMPUTER GENERATED GRAPHICS LIBRARY AVAILABLE FOR DUBNER'S "K SERIES" CHARACTER GENERATORS.

Generic backgrounds on Iomega cartridges or 5¼" floppy disks bring sophisticated network-quality graphics to every 5-K/10-K/20-K video facility. Produced on Dubner's CBG-2 and TEXTA graphics systems, Backgrounder images are the tools for constructing effective visuals for everything from corporate training tapes to sales videos to news or sports broadcasts. Graphics of people, events, buildings, landscapes, starfields and spacescapes are included. All purpose wallpaper effects, 3-D frames, scrolls, grids, maps, designer patterns and simple animations are ready to use in a myriad of sizes and colors.

Backgrounder I

(left) Stadium graphic from sports series ready for titling.

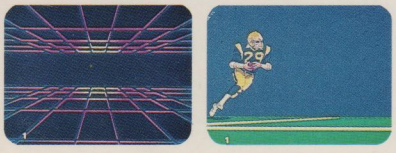
(right) Scrolls come singly, in twos, threes, or more for displaying text.

(left) Gymnastic graphic highlights scores or announcements.

(right) Combinations of bars and windows overlapping left, right, top, or bottom enhance messages.

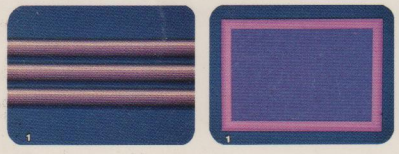
(left) Wallpaper designs with arrows and chevrons are generic backdrop for any text.

(right) Industrial or corporate graphics available.



(left) Perspective grids offer 3-D look to highlight text.

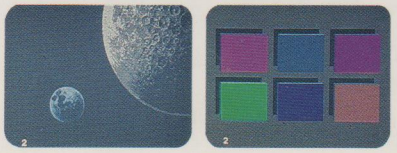
(right) Football graphic awaits scores, names, positions, or teams.



(left) Bars available in full screen and smaller sizes.

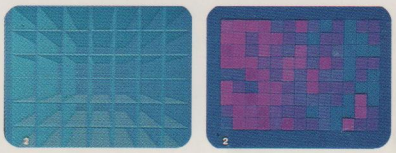
(right) Full screen, 3-D, and over-the-shoulder frames available.

Backgrounder II



(left) Spacescapes, starfields and meteor showers highlight out-of-this-world titles.

(right) Executive boards, with or without drop shadows await names or titles.



(left) Honeycomb design available in flat and neon colors.

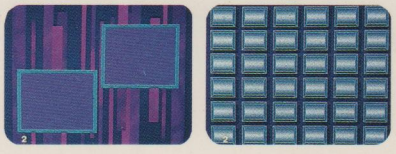
(right) Multicolor tiles offer unique backdrop for any title.

(left) Combinations of frames, both full screen and partial, enhance text display.

(right) Frame and scroll over lattice backdrop available in various colors and sizes.

(left) Satellite dish selected from science collection.

(right) Tiles in perspective offer flashy 3-D look.



(left) Frames on a diagonal, overlapping, with 3-D or embossed edges enhance any message.

(right) Embossed tiles, full screen or partial, offer high-end look for text display.

OFFICES: New York (201) 845-7988; District of Columbia (301) 622-6313; Atlanta (404) 493-1255; Chicago (219) 264-0931; Minneapolis (612) 483-2594; Dallas/Fort Worth (817) 483-7447; Los Angeles (818) 999-2303; San Francisco (415) 968-6680. *A GRASS VALLEY GROUP COMPANY.*

Sold separately or as a set, Backgrounder™ I and II offer an easily accessible library of nearly 500 backgrounds on two Iomega disks for a 20-K or twenty floppies for a 5-K/10-K. Backgrounder II combines selected graphics from Backgrounder I into a single image plus adds additional scenes and patterns.

Block Summaries shown below provide an easy access catalog system. Each category of graphic includes several color and size renditions to meet every need.

Backgrounder I Block Summaries

1000 Block Summaries

1020 Vertical Grids
1080 Beam-of-Light Grids
1100 Rod Grids
1120 Spacegrids
1140 Spacesweeps
1170 Sidesweeps
1180 45 Degree Grids
1190 Oblique Grids
1200 Rods
1210 Rails
1220 Rail/Frame Combinations
1230 Steel Scrolls
